DEMO APPLICATION OF SEWER CONNECTION

Date of Application: _____ Estimated time to rebuild: _____

Applicant Name:

Service Address:

Mailing Address:

Phone:

Email Address:

This application is to be submitted to LW Sewer Company when a home that currently has a sewer connection with LW Sewer Company's collection system is vacant and being demolished. Return this signed application for approval by LW Sewer Company's board to stop sewer invoicing while the replacement home is being built.

The account can be inactive while the new home is being constructed for up to one year with no extensions. If connection of service is not completed within 12 months, a sewer reconnection fee of \$3,000.00 will be required or you must reactivate the account and resume paying the monthly sewer rate.

Connecting to any LW Sewer Company's main sewer lines must be completed by a qualified plumbing/sewer contractor licensed with Jefferson County, subject to inspection(s) and approval by the LW Sewer Company and in accordance with rules and regulations.

No occupancy of the building to be serviced is permitted until all final inspections have been completed and approved by LW Sewer Company.
